

Mouse Heat Shock Protein 47 ELISA Kit | HSP47 elisa kit

Mouse Heat Shock Protein 47 ELISA Kit

CATALOG #
AAA83403

REACTIVITY
Mouse

PRODUCT SYNONYMS

Heat Shock Protein 47; Mouse Heat Shock Protein 47 ELISA Kit; HSP47 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Serum, Plasma, Cell Culture Supernatants, Body Fluid And Tissue Homogenate
Assay Type	Quantitative Competitive or Sandwich
Sensitivity	0.1 ng/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

Intended Uses: This HSP-40 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human HSP-40. This ELISA kit for research use only!

Principle of the Assay: HSP-40 ELISA kit applies the quantitative sandwich enzyme immunoassay technique. The microtiter plate has been pre-coated with a monoclonal antibody specific for HSP-40. Standards or samples are then added to the microtiter plate wells and HSP-40 if present, will bind to the antibody pre-coated wells. In order to quantitatively determine the amount of HSP-40 present in the sample, a standardized preparation of horseradish peroxidase (HRP)-conjugated polyclonal antibody, specific for HSP-40 are added to each well to "sandwich" the HSP-40 immobilized on the plate. The microtiter plate undergoes incubation, and then the wells are thoroughly washed to remove all unbound components. Next, substrate solutions are added to each well. The enzyme (HRP) and substrate are allowed to react over a short incubation period. Only those wells that contain HSP-40 and enzyme-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The HSP-40 concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	147900279
NCBI GeneID	379951
NCBI Accession #	NP_001080259.1
NCBI GenBank Nucleotide #	NM_001086790.1
NCBI Official Full Name	heat shock protein 47
NCBI Official Symbol	hsp47
NCBI Protein Information	heat shock protein 47

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
