

Rat Epidermal growth factor ELISA Kit | EGF elisa kit

Rat Epidermal growth factor ELISA Kit

CATALOG #
AAA83580

REACTIVITY
Rat

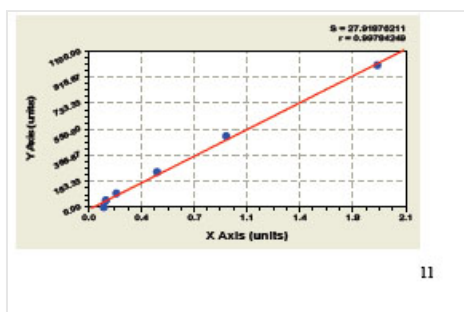

PRODUCT SYNONYMS

Epidermal growth factor; Rat Epidermal growth factor ELISA Kit; Rat Epidermal growth factor (EGF) ELISA Kit; Epidermal growth factor (Rat); EGF elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Sandwich
Sensitivity	1.0 pg/mL.
Intended Uses	This EGF ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Rat EGF. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C

ADDITIONAL INFORMATION

Related Product Information for EGF elisa kit

Principle of the Assay: EGF ELISA kit applies the quantitative sandwich enzyme immunoassay technique. The microtiter plate has been pre-coated with a monoclonal antibody specific for EGF. Standards or samples are then added to the microtiter plate wells and EGF if present, will bind to the antibody pre-coated wells. In order to quantitatively determine the amount of EGF present in the sample, a standardized preparation of horseradish peroxidase (HRP) -conjugated polyclonal antibody, specific for EGF are added to each well to "sandwich" the EGF immobilized on the plate. The microtiter plate undergoes incubation, and then the wells are thoroughly washed to remove all unbound components. Next, substrate solutions are added to each well. The enzyme (HRP) and substrate are allowed to react over a short incubation period. Only those wells that contain EGF and enzyme-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The EGF concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	688072
NCBI Official Full Name	epidermal growth factor

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
