

Mouse glucocorticoid receptor-beta ELISA Kit | GR-beta elisa kit

Mouse glucocorticoid receptor-beta ELISA Kit

CATALOG #
AAA83612

REACTIVITY
Mouse

PRODUCT SYNONYMS

glucocorticoid receptor-beta; Mouse glucocorticoid receptor-beta ELISA Kit; glucocorticoid receptor-b; glucocorticoid receptor-beta (Mouse); GR-beta elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Assay Type	Quantitative Competitive
Sensitivity	0.1 ng/mL.
Preparation and Storage	Store all reagents at 2-8 degree C

Intended Uses: This GRb ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Mouse GRb. This ELISA kit for research use only!

Principle of the Assay: GRb ELISA kit applies the competitive enzyme immunoassay technique utilizing a polyclonal anti-GRb antibody and an GRb-HRP conjugate. The assay sample and buffer are incubated together with GRb-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the GRb concentration since GRb from samples and GRb-HRP conjugate compete for the anti-GRb antibody binding site. Since the number of sites is limited, as more sites are occupied by GRb from the sample, fewer sites are left to bind GRb-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The GRb concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	66528642
NCBI GeneID	2908
NCBI Accession #	NP_001018661.1
NCBI GenBank Nucleotide #	NM_001020825.1
UniProt Accession #	P04150; P04151; Q53EP5; Q6N0A4; B0LPG8; D3DQF4; Q3MSN1; Q3MSN4
Molecular Weight	85,659 Da
NCBI Official Full Name	glucocorticoid receptor isoform beta
NCBI Official Synonym Full Names	nuclear receptor subfamily 3, group C, member 1 (glucocorticoid receptor)
NCBI Official Symbol	NR3C1
NCBI Official Synonym Symbols	GR; GCR; GRL; GCCR
NCBI Protein Information	glucocorticoid receptor; OTTHUMP00000160084; OTTHUMP00000160085; OTTHUMP00000222851; OTTHUMP00000222854; OTTHUMP00000222855; OTTHUMP00000222858; glucocorticoid nuclear receptor variant 1; nuclear receptor subfamily 3 group C member 1
UniProt Protein Name	Glucocorticoid receptor
UniProt Gene Name	NR3C1
UniProt Synonym Gene Names	GRL
UniProt Entry Name	GCR_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
