

## Mouse Alpha-1-microglobulin bikunin precursor ELISA Kit | AMBP elisa kit

Mouse Alpha-1-microglobulin bikunin precursor ELISA Kit

|                              |                            |
|------------------------------|----------------------------|
| CATALOG #<br><b>AAA83973</b> | REACTIVITY<br><b>Mouse</b> |
|------------------------------|----------------------------|

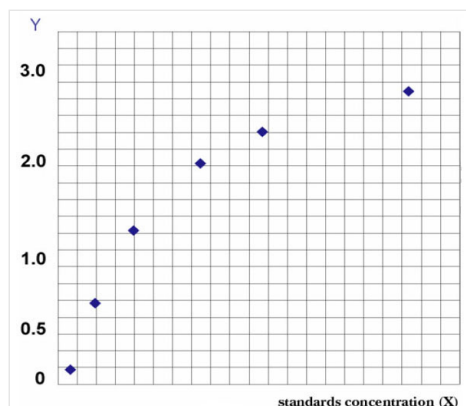

### PRODUCT SYNONYMS

Alpha-1-microglobulin bikunin precursor; Mouse Alpha-1-microglobulin bikunin precursor ELISA Kit; AMBP elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                            |
|-------------------------|----------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                      |
| Samples                 | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate |
| Assay Type              | Sandwich                                                                   |
| Detection Range         | 50-1000u/L                                                                 |
| Sensitivity             | 1.0u/L                                                                     |
| Preparation and Storage | Store all reagents at 2-8 degree C.                                        |

### ADDITIONAL INFORMATION

|                                              |                |
|----------------------------------------------|----------------|
| Product Categories/Family for AMBP elisa kit | Cardiovascular |
|----------------------------------------------|----------------|

### NCBI AND UNIPROT INFORMATION

|                         |           |
|-------------------------|-----------|
| NCBI GI #               | 117168600 |
| Molecular Weight        | 40,130 Da |
| NCBI Official Full Name | AmbP      |
| UniProt Protein Name    | AmbP      |
| UniProt Gene Name       | ambP      |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
