

Human Alpha Galactosidase ELISA Kit | Alpha GAL elisa kit

Human Alpha Galactosidase ELISA Kit

CATALOG #
AAA83977

REACTIVITY
Human

PRODUCT SYNONYMS

Alpha Galactosidase; Human Alpha Galactosidase ELISA Kit; Alpha GAL elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 ng/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

Related Product Information for Alpha GAL elisa kit

Intended Uses: This alpha-Galactosidase ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human alpha-Galactosidase. This ELISA kit for research use only!

Principle of the Assay||Alpha-Galactosidase ELISA kit applies the competitive enzyme immunoassay technique utilizing a Polyclonal anti-alpha-Galactosidase antibody and an alpha-Galactosidase-HRP conjugate. The assay sample and buffer are incubated together with alpha-Galactosidase-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the alpha-Galactosidase concentration since alpha-Galactosidase from samples and alpha-Galactosidase-HRP conjugate compete for the anti-alpha-Galactosidase antibody binding site. Since the number of sites is limited, as more sites are occupied by alpha-Galactosidase from the sample, fewer sites are left to bind alpha-Galactosidase-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The alpha-Galactosidase concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	93204535
NCBI Official Full Name	Alpha-galactosidase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
