

Human Monoamine oxidase A ELISA Kit | MAOA elisa kit

Human Monoamine oxidase A ELISA Kit

CATALOG #
AAA84156

REACTIVITY
Human

PRODUCT SYNONYMS

Monoamine oxidase A; Human Monoamine oxidase A ELISA Kit; MAOA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	2.5-50ng/mL
Sensitivity	0.1ng/mL
Intended Uses	This MOA ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human MOA. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for MAOA elisa kit

Principle of the assay: MOA ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-MOA antibody and an MOA-HRP conjugate. The assay sample and buffer are incubated together with MOA-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the MOA concentration since MOA from samples and MOA-HRP conjugate compete for the anti-MOA antibody binding site. Since the number of sites is limited, as more sites are occupied by MOA from the sample, fewer sites are left to bind MOA-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The MOA concentration in each sample is interpolated from this standard curve.

Neurobiology

NCBI AND UNIPROT INFORMATION

NCBI GI #	4262061
NCBI GeneID	4128
Molecular Weight	44,848 Da
NCBI Official Full Name	monoamine oxidase A, partial
NCBI Official Synonym Full Names	monoamine oxidase A
NCBI Official Symbol	MAOA
NCBI Official Synonym Symbols	MAO-A
NCBI Protein Information	amine oxidase [flavin-containing] A; amine oxidase [flavin-containing] A; monoamine oxidase type A
UniProt Protein Name	Amine oxidase [flavin-containing] A
UniProt Gene Name	MAOA
UniProt Synonym Gene Names	MAO-A
UniProt Entry Name	AOFA_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
