

## Mouse Galectin 12 ELISA Kit | GAL12 elisa kit

Mouse Galectin 12 ELISA Kit

|                              |                            |
|------------------------------|----------------------------|
| CATALOG #<br><b>AAA84201</b> | REACTIVITY<br><b>Mouse</b> |
|------------------------------|----------------------------|

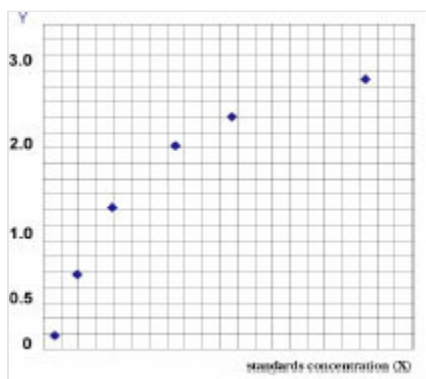

### PRODUCT SYNONYMS

Galectin 12; Mouse Galectin 12 ELISA Kit; GAL12 elisa kit

### PRODUCT SPECIFICATIONS

|                            |                                                                            |
|----------------------------|----------------------------------------------------------------------------|
| Reactivity                 | Mouse                                                                      |
| Samples                    | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate |
| Assay Type                 | Competitive                                                                |
| Detection Range            | 100-2500pg/mL                                                              |
| Sensitivity                | 1.0pg/mL                                                                   |
| Highest Standards          | 2500pg/mL                                                                  |
| Concentration of Standards | Concentration of Standards                                                 |
| Preparation and Storage    | Store all reagents at 2-8 degree C.                                        |

### NCBI AND UNIPROT INFORMATION

|                  |                |
|------------------|----------------|
| NCBI GI #        | 216547811      |
| NCBI GeneID      | 85329          |
| NCBI Accession # | NP_001136008.1 |

|                                  |                                                                       |
|----------------------------------|-----------------------------------------------------------------------|
| NCBI GenBank Nucleotide #        | <a href="#">NM_001142536.1</a>                                        |
| Molecular Weight                 | 37,629 Da                                                             |
| NCBI Official Full Name          | galectin-12 isoform 3                                                 |
| NCBI Official Synonym Full Names | lectin, galactoside-binding, soluble, 12                              |
| NCBI Official Symbol             | LGALS12                                                               |
| NCBI Official Synonym Symbols    | GAL12; GRIP1                                                          |
| NCBI Protein Information         | galectin-12; galectin 12; galectin-related inhibitor of proliferation |
| UniProt Protein Name             | Galectin-12                                                           |
| UniProt Gene Name                | <b>LGALS12</b>                                                        |
| UniProt Synonym Gene Names       | GRIP1; Gal-12                                                         |
| UniProt Entry Name               | LEG12_HUMAN                                                           |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
