

Human Cathepsin Antibodies ELISA Kit | Cath AB elisa kit

Human Cathepsin Antibodies ELISA Kit

CATALOG #
AAA84923

REACTIVITY
Human

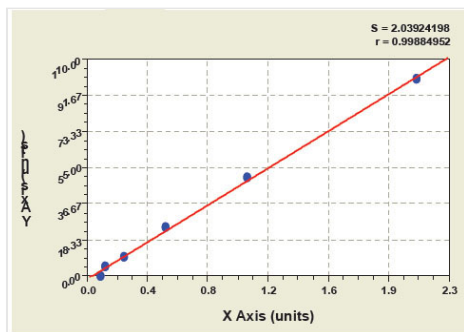

PRODUCT SYNONYMS

Cathepsin Antibodies; Human Cathepsin Antibodies ELISA Kit; Cath AB elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Sandwich
Detection Range	2.5-50u/mL
Sensitivity	1.0u/mL
Intended Uses	This Cath AB ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human Cath AB. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for Cath AB elisa kit

Principle of the Assay: Cath AB ELISA kit applies the quantitative sandwich enzyme immunoassay technique. The microtiter plate has been pre-coated with a monoclonal antibody specific for Cath AB. Standards or samples are then added to the microtiter plate wells and Cath AB if present, will bind to the antibody pre-coated wells. In order to quantitatively determine the amount of Cath AB present in the sample, a standardized preparation of horseradish peroxidase (HRP) -conjugated polyclonal antibody, specific for Cath AB are added to each well to "sandwich" the Cath AB immobilized on the plate. The microtiter plate undergoes incubation, and then the wells are thoroughly washed to remove all unbound components. Next, substrate solutions are added to each well. The enzyme (HRP) and substrate are allowed to react over a short incubation period. Only those wells that contain Cath AB and enzyme-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The Cath AB concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	179959
NCBI GeneID	1520
Molecular Weight	31,626 Da
NCBI Official Full Name	cathepsin
NCBI Official Synonym Full Names	cathepsin S
NCBI Official Symbol	CTSS
NCBI Protein Information	cathepsin S
UniProt Protein Name	Cathepsin S
UniProt Gene Name	CTSS
UniProt Entry Name	CATS_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
