

## Human Activin A ELISA Kit | ACA A elisa kit

Human Activin A ELISA Kit

CATALOG #  
**AAA85078**

REACTIVITY  
**Human**

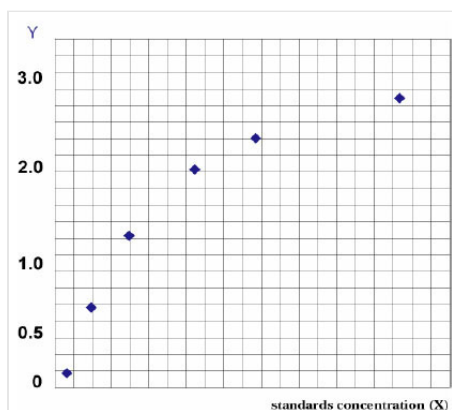

### PRODUCT SYNONYMS

Activin A; Human Activin A ELISA Kit; ACA A elisa kit

### PRODUCT SPECIFICATIONS

|                            |                                                                            |
|----------------------------|----------------------------------------------------------------------------|
| Reactivity                 | Human                                                                      |
| Samples                    | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate |
| Assay Type                 | Competitive                                                                |
| Detection Range            | 250-5000pg/mL                                                              |
| Sensitivity                | 1.0pg/mL                                                                   |
| Highest Standards          | 5000pg/mL                                                                  |
| Concentration of Standards | Concentration of Standards                                                 |
| Preparation and Storage    | Store all reagents at 2-8 degree C.                                        |

### NCBI AND UNIPROT INFORMATION

|                  |           |
|------------------|-----------|
| NCBI GI #        | 119614547 |
| NCBI GeneID      | 3624      |
| Molecular Weight | 47,442 Da |

|                                         |                                                                                                                                                                                                                                                                    |
|-----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>NCBI Official Full Name</b>          | inhibin, beta A (activin A, activin AB alpha polypeptide), isoform CRA_a                                                                                                                                                                                           |
| <b>NCBI Official Synonym Full Names</b> | inhibin, beta A                                                                                                                                                                                                                                                    |
| <b>NCBI Official Symbol</b>             | INHBA                                                                                                                                                                                                                                                              |
| <b>NCBI Official Synonym Symbols</b>    | EDF; FRP                                                                                                                                                                                                                                                           |
| <b>NCBI Protein Information</b>         | inhibin beta A chain; Inhibin, beta-1; activin beta-A chain; FSH-releasing protein; erythroid differentiation factor; erythroid differentiation protein; follicle-stimulating hormone-releasing protein; inhibin, beta A (activin A, activin AB alpha polypeptide) |
| <b>UniProt Protein Name</b>             | Inhibin beta A chain                                                                                                                                                                                                                                               |
| <b>UniProt Gene Name</b>                | <b>INHBA</b>                                                                                                                                                                                                                                                       |
| <b>UniProt Synonym Gene Names</b>       | EDF                                                                                                                                                                                                                                                                |
| <b>UniProt Entry Name</b>               | INHBA_HUMAN                                                                                                                                                                                                                                                        |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
