

## Mouse Inhibin B ELISA Kit | INB elisa kit

Mouse Inhibin B ELISA Kit

|                              |                            |
|------------------------------|----------------------------|
| CATALOG #<br><b>AAA85173</b> | REACTIVITY<br><b>Mouse</b> |
|------------------------------|----------------------------|

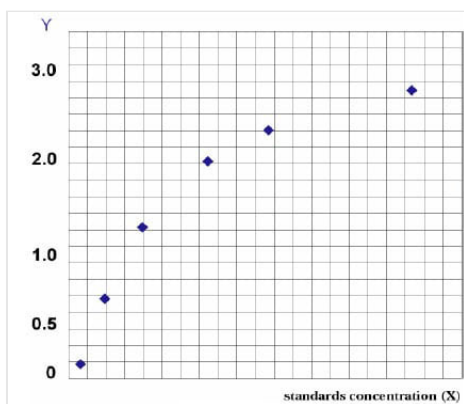

### PRODUCT SYNONYMS

Inhibin B; Mouse Inhibin B ELISA Kit; INB elisa kit

### PRODUCT SPECIFICATIONS

|                            |                                                                            |
|----------------------------|----------------------------------------------------------------------------|
| Reactivity                 | Mouse                                                                      |
| Samples                    | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate |
| Assay Type                 | Competitive                                                                |
| Detection Range            | 50-1000pg/mL                                                               |
| Sensitivity                | 1.0pg/mL                                                                   |
| Highest Standards          | 1000pg/mL                                                                  |
| Concentration of Standards | Concentration of Standards                                                 |
| Preparation and Storage    | Store all reagents at 2-8 degree C.                                        |

### ADDITIONAL INFORMATION

|                                             |              |
|---------------------------------------------|--------------|
| Product Categories/Family for INB elisa kit | Neurobiology |
|---------------------------------------------|--------------|

### NCBI AND UNIPROT INFORMATION

|                  |             |
|------------------|-------------|
| NCBI GI #        | 154813204   |
| NCBI GeneID      | 3625        |
| NCBI Accession # | NP_002184.2 |

|                                  |                                                                                          |
|----------------------------------|------------------------------------------------------------------------------------------|
| NCBI GenBank Nucleotide #        | <a href="#">NM_002193.2</a>                                                              |
| Molecular Weight                 | 45,122 Da                                                                                |
| NCBI Official Full Name          | inhibin beta B chain preproprotein                                                       |
| NCBI Official Synonym Full Names | inhibin, beta B                                                                          |
| NCBI Official Symbol             | INHBB                                                                                    |
| NCBI Protein Information         | inhibin beta B chain; Inhibin, beta-2; activin beta-B chain; activin AB beta polypeptide |
| UniProt Protein Name             | Inhibin beta B chain                                                                     |
| UniProt Gene Name                | <b>INHBB</b>                                                                             |
| UniProt Entry Name               | INHBB_HUMAN                                                                              |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
