

Mouse Thyroid stimulating antibody ELISA Kit | TSAb elisa kit

Mouse Thyroid stimulating antibody ELISA Kit

CATALOG #
AAA85847

REACTIVITY
Mouse

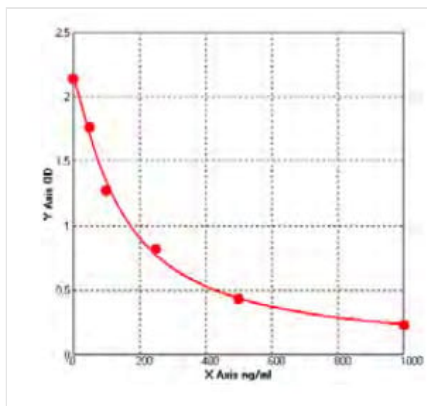

PRODUCT SYNONYMS

Thyroid stimulating antibody; Mouse Thyroid stimulating antibody ELISA Kit; TSAb elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This assay has high sensitivity and excellent specificity for detection of TSAb. No significant cross-reactivity or interference between TSAb and analogues was observed. NOTE: Limited by current skills and knowledge, it is impossible for us to complete the cross-reactivity detection between TSAb and all the analogues, therefore, cross reaction may still exist in some cases.
Assay Type	Quantitative Competitive
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Sensitivity	1.0 ng/mL
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for TSAb elisa kit	Principle of the Assay: TSAb ELISA kit applies the competitive enzyme immunoassay technique utilizing Thyroid Stimulating antigen and an TSAb-HRP conjugate. The assay sample and buffer are incubated together with TSAb-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the TSAb concentration since TSAb from samples and TSAb-HRP conjugate compete for the Thyroid Stimulating antigen binding site. Since the number of sites is limited, as more sites are occupied by TSAb from the sample, fewer sites are left to bind TSAb-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The TSAb concentration in each sample is interpolated from this standard curve. Intended Uses: This TSAb ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Mouse TSAb. This ELISA kit for research use only, not for therapeutic or test applications!
Product Categories/Family for TSAb elisa kit	Immunology

NCBI AND UNIPROT INFORMATION

NCBI GI #	5381203
Molecular Weight	20,282 Da
NCBI Official Full Name	TsaB
UniProt Protein Name	Putative fimbrial subunit
UniProt Gene Name	tsaB
UniProt Synonym Gene Names	tcfB; t2549
UniProt Entry Name	Q9XDS3_SALTI

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
