

## Rat Caspase 3 ELISA Kit | CASP3 elisa kit

Rat Caspase 3 ELISA Kit

CATALOG #  
**AAA86198**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

Caspase 3; Rat Caspase 3 ELISA Kit; CASP3 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                                                                                                                                                                                                                                                                         |
| Specificity             | This assay has high sensitivity and excellent specificity for detection of CASP3. No significant cross-reactivity or interference between CASP3 and analogues was observed. NOTE: Limited by current skills and knowledge, it is impossible for us to complete the cross-reactivity detection between CASP3 and all the analogues, therefore, cross reaction may still exist in some cases. |
| Assay Type              | Quantitative Competitive                                                                                                                                                                                                                                                                                                                                                                    |
| Samples                 | Serum, plasma, cell culture supernatants, body fluid and tissue homogenate                                                                                                                                                                                                                                                                                                                  |
| Sensitivity             | 0.1 ng/ml                                                                                                                                                                                                                                                                                                                                                                                   |
| Preparation and Storage | Store all reagents at 2-8 degree C                                                                                                                                                                                                                                                                                                                                                          |

| Related Product Information for CASP3 elisa kit | <p>Principle of the Assay: CASP3 ELISA kit applies the competitive enzyme immunoassay technique utilizing a polyclonal anti-CASP3 antibody and an CASP3-HRP conjugate. The assay sample and buffer are incubated together with CASP3-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the CASP3 concentration since CASP3 from samples and CASP3-HRP conjugate compete for the anti-CASP3 antibody binding site. Since the number of sites is limited, as more sites are occupied by CASP3 from the sample, fewer sites are left to bind CASP3-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The CASP3 concentration in each sample is interpolated from this standard curve.</p> <p>Intended Uses: This CASP3 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Rat CASP3. This ELISA kit for research use only, not for therapeutic or test applications!</p> |

| NCBI Official Synonym Symbols    | CPP32; SCA-1; CPP32B                                                                                                                                                                            |
| NCBI Protein Information         | caspase-3; Yama; CASP-3; CPP-32; apopain; procaspase3; protein Yama; PARP cleavage protease; cysteine protease CPP32; SREBP cleavage activity 1; caspase 3, apoptosis-related cysteine protease |
| UniProt Protein Name             | Caspase-3                                                                                                                                                                                       |
| UniProt Gene Name                | CASP3                                                                                                                                                                                           |
| UniProt Synonym Gene Names       | CPP32; CASP-3; CPP-32; SCA-1                                                                                                                                                                    |
| UniProt Entry Name               | CASP3_HUMAN                                                                                                                                                                                     |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
