

Rabbit Soluble interleukin 7 receptor ELISA Kit | Sil-7R/cd127 elisa kit

Rabbit Soluble interleukin 7 receptor ELISA Kit

CATALOG #
AAA86622

REACTIVITY
Rabbit

PRODUCT SYNONYMS

Soluble interleukin 7 receptor; Rabbit Soluble interleukin 7 receptor ELISA Kit; Sil-7R/cd127 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rabbit
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 ng/mL.
Intended Uses	This Sil-7R/cd127 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Rabbit Sil-7R/cd127. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for Sil-7R/cd127 elisa kit

Principle of the assay: Sil-7R/cd127 ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-Sil-7R/cd127 antibody and an Sil-7R/cd127-HRP conjugate. The assay sample and buffer are incubated together with Sil-7R/cd127-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the Sil-7R/cd127 concentration since Sil-7R/cd127 from samples and Sil-7R/cd127-HRP conjugate compete for the anti-Sil-7R/cd127 antibody binding site. Since the number of sites is limited, as more sites are occupied by Sil-7R/cd127 from the sample, fewer sites are left to bind Sil-7R/cd127-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The Sil-7R/cd127 concentration in each sample is interpolated from this standard curve.

Immunology

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
