

## Human Fibroblast Growth Factor 7 ELISA Kit | FGF7 elisa kit

Human Fibroblast Growth Factor 7 ELISA Kit

CATALOG #  
**AAA87132**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Fibroblast Growth Factor 7; Human Fibroblast Growth Factor 7 ELISA Kit; FGF7 elisa kit

### PRODUCT SPECIFICATIONS

|                            |                                                                            |
|----------------------------|----------------------------------------------------------------------------|
| Reactivity                 | Human                                                                      |
| Samples                    | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate |
| Assay Type                 | Competitive or Sandwich                                                    |
| Detection Range            | 100-2500pg/mL                                                              |
| Sensitivity                | 1.0pg/mL                                                                   |
| Highest Standards          | 2000pg/mL                                                                  |
| Concentration of Standards | Concentration of Standards                                                 |
| Preparation and Storage    | Store all reagents at 2-8 degree C.                                        |

Product Categories/Family for FGF7 elisa kit

Cardiovascular

### NCBI AND UNIPROT INFORMATION

|                     |                                |
|---------------------|--------------------------------|
| NCBI GI #           | 49456957                       |
| NCBI GeneID         | 2252                           |
| UniProt Accession # | Q6FGV5; Q96FG5; H0YNY5; P21781 |

|                                         |                                                                                                |
|-----------------------------------------|------------------------------------------------------------------------------------------------|
| <b>Molecular Weight</b>                 | 11,520 Da                                                                                      |
| <b>NCBI Official Full Name</b>          | FGF7, partial                                                                                  |
| <b>NCBI Official Synonym Full Names</b> | fibroblast growth factor 7                                                                     |
| <b>NCBI Official Symbol</b>             | FGF7                                                                                           |
| <b>NCBI Official Synonym Symbols</b>    | KGF; HBGF-7                                                                                    |
| <b>NCBI Protein Information</b>         | fibroblast growth factor 7; FGF-7; keratinocyte growth factor; heparin-binding growth factor 7 |
| <b>UniProt Protein Name</b>             | Fibroblast growth factor 7                                                                     |
| <b>UniProt Gene Name</b>                | <b>FGF7</b>                                                                                    |
| <b>UniProt Synonym Gene Names</b>       | KGF; FGF-7; HBGF-7                                                                             |
| <b>UniProt Entry Name</b>               | FGF7_HUMAN                                                                                     |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
