

Mouse Glucose Transporter 3 ELISA Kit | GLUT3 elisa kit

Mouse Glucose Transporter 3 ELISA Kit

CATALOG #
AAA87156

REACTIVITY
Mouse

PRODUCT SYNONYMS

Glucose Transporter 3; Mouse Glucose Transporter 3 ELISA Kit; GLUT3 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Serum, Plasma
Assay Type	Quantitative Competitive
Sensitivity	0.1 mmol/L.
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for GLUT3 elisa kit

Intended Uses: This Glucose ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep Glucose. This ELISA kit for research use only!

Principle of the Assay: Glucose ELISA kit applies the competitive enzyme immunoassay technique utilizing an anti-Glucose antibody and an Glucose-HRP conjugate. The assay sample and buffer are incubated together with Glucose-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the Glucose concentration since Glucose from samples and Glucose-HRP conjugate compete for the anti-Glucose antibody binding site. Since the number of sites is limited, as more sites are occupied by Glucose from the sample, fewer sites are left to bind Glucose-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The Glucose concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	8927560
NCBI GeneID	6515
Molecular Weight	53,924 Da
NCBI Official Full Name	glucose transporter 3
NCBI Official Synonym Full Names	solute carrier family 2 (facilitated glucose transporter), member 3
NCBI Official Symbol	SLC2A3
NCBI Official Synonym Symbols	GLUT3
NCBI Protein Information	solute carrier family 2, facilitated glucose transporter member 3; GLUT-3; glucose transporter type 3, brain
UniProt Protein Name	Solute carrier family 2, facilitated glucose transporter member 3
UniProt Gene Name	SLC2A3
UniProt Synonym Gene Names	GLUT3; GLUT-3
UniProt Entry Name	GTR3_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
