

## Human Insulin Like Growth Factor Binding Protein 4 ELISA Kit | IGFBP4 elisa kit

Human Insulin Like Growth Factor Binding Protein 4 ELISA Kit

|                              |                            |
|------------------------------|----------------------------|
| CATALOG #<br><b>AAA87398</b> | REACTIVITY<br><b>Human</b> |
|------------------------------|----------------------------|

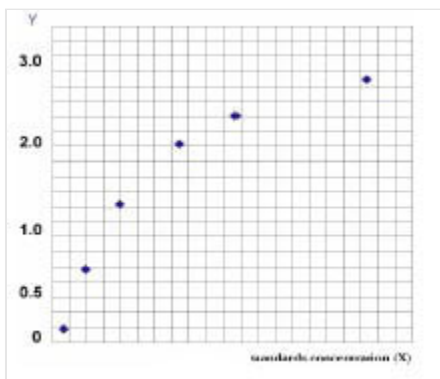

### PRODUCT SYNONYMS

Insulin Like Growth Factor Binding Protein 4; Human Insulin Like Growth Factor Binding Protein 4 ELISA Kit; IGFBP4 elisa kit

### PRODUCT SPECIFICATIONS

|                            |                                                                            |
|----------------------------|----------------------------------------------------------------------------|
| Reactivity                 | Human                                                                      |
| Samples                    | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate |
| Assay Type                 | Competitive                                                                |
| Detection Range            | 2.5-50ng/mL                                                                |
| Sensitivity                | 1.0ng/mL                                                                   |
| Highest Standards          | 250ng/mL                                                                   |
| Concentration of Standards | Concentration of Standards                                                 |
| Preparation and Storage    | Store all reagents at 2-8 degree C.                                        |

### ADDITIONAL INFORMATION

|                                                |              |
|------------------------------------------------|--------------|
| Product Categories/Family for IGFBP4 elisa kit | Cell Biology |
|------------------------------------------------|--------------|

### NCBI AND UNIPROT INFORMATION

|                  |             |
|------------------|-------------|
| NCBI GI #        | 62243290    |
| NCBI GeneID      | 3487        |
| NCBI Accession # | NP_001543.2 |

|                                  |                                                                            |
|----------------------------------|----------------------------------------------------------------------------|
| NCBI GenBank Nucleotide #        | NM_001552.2                                                                |
| Molecular Weight                 | 27,934 Da                                                                  |
| NCBI Official Full Name          | insulin-like growth factor-binding protein 4                               |
| NCBI Official Synonym Full Names | insulin-like growth factor binding protein 4                               |
| NCBI Official Symbol             | IGFBP4                                                                     |
| NCBI Official Synonym Symbols    | BP-4; IBP4; IGFBP-4; HT29-IGFBP                                            |
| NCBI Protein Information         | insulin-like growth factor-binding protein 4; IBP-4; IGF-binding protein 4 |
| UniProt Protein Name             | Insulin-like growth factor-binding protein 4                               |
| UniProt Gene Name                | <b>IGFBP4</b>                                                              |
| UniProt Synonym Gene Names       | IBP4; IBP-4; IGF-binding protein 4; IGFBP-4                                |
| UniProt Entry Name               | IBP4_HUMAN                                                                 |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
