

Mouse alpha-Glucosidase ELISA Kit | A-Glu elisa kit

Mouse alpha-Glucosidase ELISA Kit

CATALOG #
AAA87421

REACTIVITY
Mouse

PRODUCT SYNONYMS

alpha-Glucosidase; Mouse alpha-Glucosidase ELISA Kit; Mouse a-Glucosidase ELISA Kit; A-Glu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	50-1000ng/mL
Sensitivity	1.0ng/mL
Intended Uses	This A-GLU ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of mouse A-GLU. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for A-Glu elisa kit

Principle of the Assay: A-GLU ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-A-GLU antibody and an A-GLU-HRP conjugate. The assay sample and buffer are incubated together with A-GLU-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the A-GLU concentration since A-GLU from samples and A-GLU-HRP conjugate compete for the anti-A-GLU antibody binding site. Since the number of sites is limited, as more sites are occupied by A-GLU from the sample, fewer sites are left to bind A-GLU-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The A-GLU concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	108805378
NCBI Accession #	YP_645315.1
NCBI GenBank Nucleotide #	NC_008148.1
Molecular Weight	82,304 Da
NCBI Official Full Name	alpha-glucosidase
UniProt Protein Name	Glycoside hydrolase, family 31
UniProt Entry Name	Q1ASX5_RUBXD

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
