

Human Apoptosis-related genes ELISA Kit

Human Apoptosis-related genes ELISA Kit

CATALOG #
AAA87566

REACTIVITY
Human

PRODUCT SYNONYMS

Apoptosis-related genes; Human Apoptosis-related genes ELISA Kit; Apoptosis-related genes ELISA Kit (Human); Apoptosis-related genes elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 pg/mL.
Intended Uses	This ARGs ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human ARGs. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C

ADDITIONAL INFORMATION

Related Product Information for Apoptosis-related genes elisa kit

Principle of the assay: ARGs ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-ARGs antibody and an ARGs-HRP conjugate. The assay sample and buffer are incubated together with ARGs-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the ARGs concentration since ARGs from samples and ARGs-HRP conjugate compete for the anti-ARGs antibody binding site. Since the number of sites is limited, as more sites are occupied by ARGs from the sample, fewer sites are left to bind ARGs-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The ARGs concentration in each sample is interpolated from this standard curve.

Human ELISA Kit

NCBI AND UNIPROT INFORMATION

NCBI GI #	45269013
NCBI Official Full Name	apoptosis-related protein, partial

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
