

Human growth hormone releasing peptide-Ghrelin ELISA Kit | GHRP-Ghrelin elisa kit

Human growth hormone releasing peptide-Ghrelin ELISA Kit

CATALOG #
AAA87657

REACTIVITY
Human

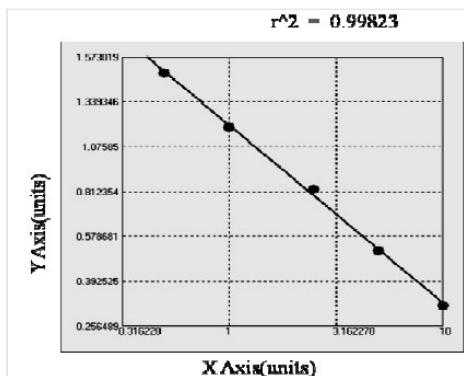

PRODUCT SYNONYMS

growth hormone releasing peptide-Ghrelin; Human growth hormone releasing peptide-Ghrelin ELISA Kit; growth hormone releasing peptide-Ghrelin (Human); GHRP-Ghrelin elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This GHRP-Ghrelin ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human GHRP-Ghrelin. This ELISA kit for research use only, not for therapeutic applications
Preparation and Storage	Store all reagents at 2-8 degree C

ADDITIONAL INFORMATION

Related Product Information for GHRP-Ghrelin elisa kit

Principle of the assay: GHRP-Ghrelin ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-GHRP-Ghrelin antibody and an GHRP-Ghrelin-HRP conjugate. The assay sample and buffer are incubated together with GHRP-Ghrelin-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the GHRP-Ghrelin concentration since GHRP-Ghrelin from samples and GHRP-Ghrelin-HRP conjugate compete for the anti-GHRP-Ghrelin antibody binding site. Since the number of sites is limited, as more sites are occupied by GHRP-Ghrelin from the sample, fewer sites are left to bind GHRP-Ghrelin-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The GHRP-Ghrelin concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	304435649
NCBI Official Full Name	ghrelin

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
