

Human Endothelial Nitric Oxide Synthase ELISA Kit | eNOS elisa kit

Human Endothelial Nitric Oxide Synthase ELISA Kit

CATALOG #
AAA87924

REACTIVITY
Human

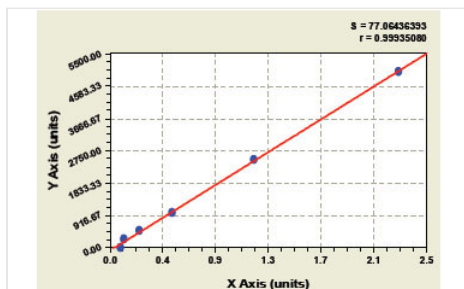

PRODUCT SYNONYMS

Endothelial Nitric Oxide Synthase; Human Endothelial Nitric Oxide Synthase ELISA Kit; eNOS elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive or Sandwich
Detection Range	2.5-50ng/mL
Sensitivity	0.1ng/mL
Intended Uses	This eNOS ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Human eNOS. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for eNOS elisa kit

Principle of the Assay: eNOS ELISA kit applies the quantitative sandwich enzyme immunoassay technique. The microtiter plate has been pre-coated with a monoclonal antibody specific for eNOS. Standards or samples are then added to the microtiter plate wells and eNOS if present, will bind to the antibody pre-coated wells. In order to quantitatively determine the amount of eNOS present in the sample, a standardized preparation of horseradish peroxidase (HRP) -conjugated polyclonal antibody, specific for eNOS are added to each well to "sandwich" the eNOS immobilized on the plate. The microtiter plate undergoes incubation, and then the wells are thoroughly washed to remove all unbound components. Next, substrate solutions are added to each well. The enzyme (HRP) and substrate are allowed to react over a short incubation period. Only those wells that contain eNOS and enzyme-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The eNOS concentration in each sample is interpolated from this standard curve.

Product Categories/Family for eNOS elisa kit

Cardiovascular

NCBI AND UNIPROT INFORMATION

NCBI GI #	148913721
UniProt Accession #	A6H544
Molecular Weight	5,517 Da
NCBI Official Full Name	eNOS protein, partial
UniProt Protein Name	ENOS protein
UniProt Gene Name	eNOS
UniProt Entry Name	A6H544_CALJA

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
