

Monkey Glutamic Pyruvic Transaminase ELISA Kit | GPI/ALT elisa kit

Monkey Glutamic Pyruvic Transaminase ELISA Kit

CATALOG #
AAA88474

REACTIVITY
Monkey

PRODUCT SYNONYMS

Glutamic Pyruvic Transaminase; Monkey Glutamic Pyruvic Transaminase ELISA Kit; GPI/ALT elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Monkey
Specificity	This assay has high sensitivity and excellent specificity for detection of GPT. No significant cross-reactivity or interference between GPT and analogues was observed. NOTE: Limited by current skills and knowledge, it is impossible for us to complete the cross-reactivity detection between GPT and all the analogues, therefore, cross reaction may still exist in some cases.
Assay Type	Quantitative Competitive
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Sensitivity	0.1 ng/mL
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for GPI/ALT elisa kit	Principle of the Assay: GPT ELISA kit applies the competitive enzyme immunoassay technique utilizing an anti-GPT antibody and an GPT-HRP conjugate. The assay sample and buffer are incubated together with GPT-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the GPT concentration since GPT from samples and GPT-HRP conjugate compete for the anti-GPT antibody binding site. Since the number of sites is limited, as more sites are occupied by GPT from the sample, fewer sites are left to bind GPT-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The GPT concentration in each sample is interpolated from this standard curve. Intended Uses: This GPT ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Monkey GPT. This ELISA kit for research use only, not for therapeutic or test applications!

NCBI AND UNIPROT INFORMATION

NCBI GI #	4885351
NCBI GeneID	2875
NCBI Accession #	NP_005300.1
NCBI GenBank Nucleotide #	NM_005309.2
Molecular Weight	54,637 Da
NCBI Official Full Name	alanine aminotransferase 1
NCBI Official Synonym Full Names	glutamic-pyruvate transaminase (alanine aminotransferase)
NCBI Official Symbol	GPT
NCBI Official Synonym Symbols	AAT1; ALT1; GPT1
NCBI Protein Information	alanine aminotransferase 1; GPT 1; glutamic-alanine transaminase 1; glutamic--alanine transaminase 1; glutamic--pyruvic transaminase 1; glutamate pyruvate transaminase 1
UniProt Protein Name	Alanine aminotransferase 1
UniProt Gene Name	GPT
UniProt Synonym Gene Names	AAT1; GPT1; ALT1; GPT 1
UniProt Entry Name	ALAT1_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
