

Chicken Ras GTPase Activating Protein ELISA Kit | RasGAP elisa kit

Chicken Ras GTPase Activating Protein ELISA Kit

CATALOG #
AAA88503

REACTIVITY
Chicken

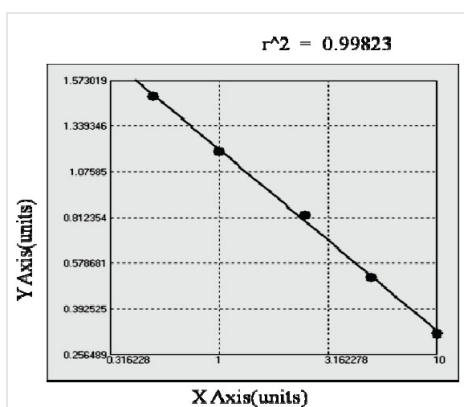

PRODUCT SYNONYMS

Ras GTPase Activating Protein; Chicken Ras GTPase Activating Protein ELISA Kit; RasGAP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Chicken
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This RASA1 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Chicken RASA1. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C

ADDITIONAL INFORMATION

Related Product Information for RasGAP elisa kit

Principle of the Assay: RASA1 ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-RASA1 antibody and an RASA1-HRP conjugate. The assay sample and buffer are incubated together with RASA1-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the RASA1 concentration since RASA1 from samples and RASA1-HRP conjugate compete for the anti-RASA1 antibody binding site. Since the number of sites is limited, as more sites are occupied by RASA1 from the sample, fewer sites are left to bind RASA1-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The RASA1 concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	108884322
NCBI Official Full Name	ras gtpase activating protein

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
