

Sheep Phosphofructokinase- Platelet ELISA Kit | PFKP elisa kit

Sheep Phosphofructokinase- Platelet ELISA Kit

CATALOG #
AAA88648

REACTIVITY
Sheep

PRODUCT SYNONYMS

Phosphofructokinase- Platelet; Sheep Phosphofructokinase- Platelet ELISA Kit; PFKP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This PFKP ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep PFKP. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for PFKP elisa kit

Principle of the assay: PFKP ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-PFKP antibody and an PFKP-HRP conjugate. The assay sample and buffer are incubated together with PFKP-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the PFKP concentration since PFKP from samples and PFKP-HRP conjugate compete for the anti-PFKP antibody binding site. Since the number of sites is limited, as more sites are occupied by PFKP from the sample, fewer sites are left to bind PFKP-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The PFKP concentration in each sample is interpolated from this standard curve.

Signal Transduction

NCBI AND UNIPROT INFORMATION

NCBI GI #	57162486
UniProt Accession #	Q5VSR5
Molecular Weight	22,677 Da
UniProt Protein Name	ATP-dependent 6-phosphofructokinase, platelet type
UniProt Gene Name	PFKP
UniProt Entry Name	Q5VSR5_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
