

Goat Attractin ELISA Kit | ATRN elisa kit

Goat Attractin ELISA Kit

CATALOG #
AAA88913

REACTIVITY
Goat

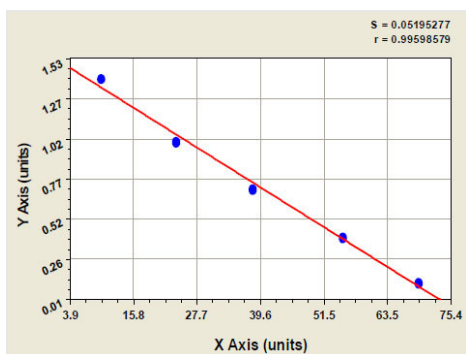

PRODUCT SYNONYMS

Attractin; Goat Attractin ELISA Kit; ATRN elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Goat
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This ATRN ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Goat ATRN. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for ATRN elisa kit

Principle of the assay: ATRN ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-ATRN antibody and an ATRN-HRP conjugate. The assay sample and buffer are incubated together with ATRN-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the ATRN concentration since ATRN from samples and ATRN-HRP conjugate compete for the anti-ATRN antibody binding site. Since the number of sites is limited, as more sites are occupied by ATRN from the sample, fewer sites are left to bind ATRN-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The ATRN concentration in each sample is interpolated from this standard curve.

Neurobiology

NCBI AND UNIPROT INFORMATION

NCBI GI #	2304971
NCBI GeneID	472
Molecular Weight	350,687 Da
NCBI Official Full Name	ATM
NCBI Official Synonym Full Names	ATM serine/threonine kinase
NCBI Official Symbol	ATM
NCBI Official Synonym Symbols	AT1; ATA; ATC; ATD; ATE; ATDC; TEL1; TELO1
NCBI Protein Information	serine-protein kinase ATM; AT mutated; A-T mutated; ataxia telangiectasia mutated; TEL1, telomere maintenance 1, homolog
UniProt Protein Name	Serine-protein kinase ATM
UniProt Gene Name	ATM
UniProt Synonym Gene Names	A-T mutated
UniProt Entry Name	ATM_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
