

Canine platelet-derived growth factor-BB ELISA Kit | PDGF-BB elisa kit

Canine platelet-derived growth factor-BB ELISA Kit

CATALOG #
AAA88926

REACTIVITY
Canine

PRODUCT SYNONYMS

platelet-derived growth factor-BB; Canine platelet-derived growth factor-BB ELISA Kit; PDGF-BB elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Canine
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	100-2500pg/mL?
Sensitivity	1.png/mL
Intended Uses	This PDGF-BB ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Canine PDGF-BB. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for PDGF-BB elisa kit

Principle of the assay: PDGF-BB ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-PDGF-BB antibody and an PDGF-BB-HRP conjugate. The assay sample and buffer are incubated together with PDGF-BB-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the PDGF-BB concentration since PDGF-BB from samples and PDGF-BB-HRP conjugate compete for the anti-PDGF-BB antibody binding site. Since the number of sites is limited, as more sites are occupied by PDGF-BB from the sample, fewer sites are left to bind PDGF-BB-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The PDGF-BB concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	35377
UniProt Accession #	A2NWD3
Molecular Weight	18,237 Da
NCBI Official Full Name	platelet-derived growth factor-BB
UniProt Protein Name	Platelet-derived growth factor-BB
UniProt Entry Name	A2NWD3_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
