

Sheep Glucocorticoid receptor-beta ELISA Kit | GR-beta elisa kit

Sheep Glucocorticoid receptor-beta ELISA Kit

CATALOG #
AAA89030

REACTIVITY
Sheep

PRODUCT SYNONYMS

Glucocorticoid receptor-beta; Sheep Glucocorticoid receptor-beta ELISA Kit; Sheep Glucocorticoid receptor-b ELISA Kit; GR-beta elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 pg/mL.
Intended Uses	This GR-beta ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep GR-beta. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for GR-beta elisa kit

Principle of the Assay: GR-beta ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-GR-beta antibody and an GR-beta-HRP conjugate. The assay sample and buffer are incubated together with GR-beta-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the GR-beta concentration since GR-beta from samples and GR-beta-HRP conjugate compete for the anti-GR-beta antibody binding site. Since the number of sites is limited, as more sites are occupied by GR-beta from the sample, fewer sites are left to bind GR-beta-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The GR-beta concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	66528642
NCBI GeneID	2908
NCBI Accession #	NP_001018661.1
NCBI GenBank Nucleotide #	NM_001020825.1
Molecular Weight	82,904 Da
NCBI Official Full Name	glucocorticoid receptor isoform beta
NCBI Official Synonym Full Names	nuclear receptor subfamily 3, group C, member 1 (glucocorticoid receptor)
NCBI Official Symbol	NR3C1
NCBI Official Synonym Symbols	GR; GCR; GRL; GCCR; GCRST
NCBI Protein Information	glucocorticoid receptor; glucocorticoid nuclear receptor variant 1
UniProt Protein Name	Glucocorticoid receptor
UniProt Gene Name	NR3C1
UniProt Synonym Gene Names	GRL; GR
UniProt Entry Name	GCR_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
