

Chicken alpha-Glucosidase ELISA Kit | A-Glu elisa kit

Chicken alpha-Glucosidase ELISA Kit

CATALOG #
AAA89038

REACTIVITY
Chicken

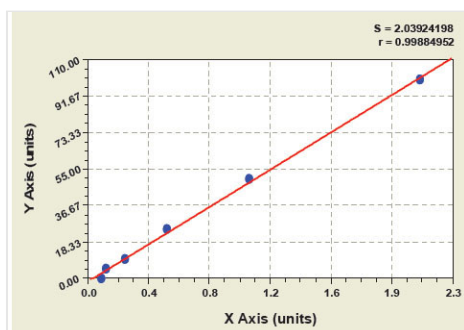

PRODUCT SYNONYMS

alpha-Glucosidase; Chicken alpha-Glucosidase ELISA Kit; Chicken a-Glucosidase ELISA Kit; A-Glu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Chicken
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive or Sandwich
Intended Uses	This A-GLU ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Chicken A-GLU. This ELISA kit for research use only, not for therapeutic applications
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for A-Glu elisa kit

Principle of the Assay: A-GLU ELISA kit applies the quantitative sandwich enzyme immunoassay technique. The microtiter plate has been pre-coated with a monoclonal antibody specific for A-GLU. Standards or samples are then added to the microtiter plate wells and A-GLU if present, will bind to the antibody pre-coated wells. In order to quantitatively determine the amount of A-GLU present in the sample, a standardized preparation of horseradish peroxidase (HRP) -conjugated polyclonal antibody, specific for A-GLU are added to each well to "sandwich" the A-GLU immobilized on the plate. The microtiter plate undergoes incubation, and then the wells are thoroughly washed to remove all unbound components. Next, substrate solutions are added to each well. The enzyme (HRP) and substrate are allowed to react over a short incubation period. Only those wells that contain A-GLU and enzyme-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm. A standard curve is plotted relating the intensity of the color (p.D.) to the concentration of standards. The A-GLU concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	108805378
NCBI Accession #	YP_645315.1
NCBI GenBank Nucleotide #	NC_008148.1
Molecular Weight	82,304 Da
NCBI Official Full Name	alpha-glucosidase
UniProt Protein Name	Glycoside hydrolase, family 31
UniProt Entry Name	Q1ASX5_RUBXD

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
