

Sheep Oncogene protein p190/bcr-abl ELISA Kit | Oncogene protein p190/bcr-abl elisa kit

Sheep Oncogene protein p190/bcr-abl ELISA Kit

CATALOG #
AAA89427

REACTIVITY
Sheep

PRODUCT SYNONYMS

Oncogene protein p190/bcr-abl; Sheep Oncogene protein p190/bcr-abl ELISA Kit; Oncogene protein p190/bcr-abl elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This Oncogene protein p190/bcr-abl ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep Oncogene protein p190/bcr-abl. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for Oncogene protein p190/bcr-abl elisa kit

Principle of the assay: Oncogene protein p190/bcr-abl ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-Oncogene protein p190/bcr-abl antibody and an Oncogene protein p190/bcr-abl-HRP conjugate. The assay sample and buffer are incubated together with Oncogene protein p190/bcr-abl-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the Oncogene protein p190/bcr-abl concentration since Oncogene protein p190/bcr-abl from samples and Oncogene protein p190/bcr-abl-HRP conjugate compete for the anti-Oncogene protein p190/bcr-abl antibody binding site. Since the number of sites is limited, as more sites are occupied by Oncogene protein p190/bcr-abl from the sample, fewer sites are left to bind Oncogene protein p190/bcr-abl-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The Oncogene protein p190/bcr-abl concentration in each sample is interpolated from this standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
