

Goat Serotonin Transporter ELISA Kit | SERT elisa kit

Goat Serotonin Transporter ELISA Kit

CATALOG #
AAA89477

REACTIVITY
Goat

PRODUCT SYNONYMS

Serotonin Transporter; Goat Serotonin Transporter ELISA Kit; SERT elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Goat
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Preparation and Storage	Store all reagents at 2-8 degree C

ADDITIONAL INFORMATION

Related Product Information for SERT elisa kit

For samples: Serum, plasma, cell culture supernatants, body fluid and tissue homogenate

INTENDED USE This SERT ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Goat SERT. This ELISA kit for research use only!

PRINCIPLE OF THE ASSAY SERT ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-SERT antibody and an SERT-HRP conjugate. The assay sample and buffer are incubated together with SERT-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the SERT concentration since SERT from samples and SERT-HRP conjugate compete for the anti-SERT antibody binding site. Since the number of sites is limited, as more sites are occupied by SERT from the sample, fewer sites are left to bind SERT-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The SERT concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	58700442
NCBI GeneID	6532
UniProt Accession #	P31645; Q5EE02; Q9NYN7; AAB26687
Molecular Weight	70,325 Da
NCBI Official Full Name	serotonin transporter
NCBI Official Synonym Full Names	solute carrier family 6 (neurotransmitter transporter, serotonin), member 4
NCBI Official Symbol	SLC6A4
NCBI Official Synonym Symbols	HTT; 5HTT; OCD1; SERT; 5-HTT; SERT1; hSERT; 5-HTTLPR
NCBI Protein Information	sodium-dependent serotonin transporter; 5HT transporter; 5-hydroxytryptamine transporter; solute carrier family 6 member 4; Na ⁺ /Cl ⁻ dependent serotonin transporter
UniProt Protein Name	Sodium-dependent serotonin transporter
UniProt Gene Name	SLC6A4
UniProt Synonym Gene Names	HTT; SERT; 5HTT
UniProt Entry Name	SC6A4_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
