

Sheep Apoptosis Inducing Factor ELISA Kit | AIF elisa kit

Sheep Apoptosis Inducing Factor ELISA Kit

CATALOG #
AAA89663

REACTIVITY
Sheep

PRODUCT SYNONYMS

Apoptosis Inducing Factor; Sheep Apoptosis Inducing Factor ELISA Kit; AIF elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This AIF ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep AIF. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for AIF elisa kit

Principle of the Assay: AIF ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-AIF antibody and an AIF-HRP conjugate. The assay sample and buffer are incubated together with AIF-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the AIF concentration since AIF from samples and AIF-HRP conjugate compete for the anti-AIF antibody binding site. Since the number of sites is limited, as more sites are occupied by AIF from the sample, fewer sites are left to bind AIF-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The AIF concentration in each sample is interpolated from this standard curve.

Product Categories/Family for AIF elisa kit

Cell Biology

NCBI AND UNIPROT INFORMATION

NCBI GI #	55585894
NCBI GeneID	9131
Molecular Weight	24,425 Da
NCBI Official Full Name	apoptosis-inducing factor, partial
UniProt Protein Name	Apoptosis-inducing factor
UniProt Entry Name	Q5RZ99_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
