

## Monkey Caspase-3 ELISA Kit | caspase-3 elisa kit

Monkey Caspase-3 ELISA Kit

|                              |                             |
|------------------------------|-----------------------------|
| CATALOG #<br><b>AAA90120</b> | REACTIVITY<br><b>Monkey</b> |
|------------------------------|-----------------------------|

### PRODUCT SYNONYMS

Caspase-3; Monkey Caspase-3 ELISA Kit; caspase-3 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                            |
|-------------------------|----------------------------------------------------------------------------|
| Reactivity              | Monkey                                                                     |
| Samples                 | Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate |
| Assay Type              | Sandwich                                                                   |
| Detection Range         | 0.5-10ng/mL                                                                |
| Sensitivity             | 0.1ng/mL                                                                   |
| Preparation and Storage | Store all reagents at 2-8 degree C.                                        |

| Related Product Information for caspase-3 elisa kit | <p>Intended Uses  This CASPASE-3 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Monkey CASPASE-3. This ELISA kit for research use only!</p> <p>Principle of the Assay: CASPASE-3 ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-CASPASE-3 antibody and an CASPASE-3-HRP conjugate. The assay sample and buffer are incubated together with CASPASE-3-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the CASPASE-3 concentration since CASPASE-3 from samples and CASPASE-3-HRP conjugate compete for the anti-CASPASE-3 antibody binding site. Since the number of sites is limited, as more sites are occupied by CASPASE-3 from the sample, fewer sites are left to bind CASPASE-3-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The CASPASE-3 concentration in each sample is interpolated from this standard curve.</p> |
| Product Categories/Family for caspase-3 elisa kit   | Cell Biology                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
