

Goat Ras GTPase Activating Protein ELISA Kit | RasGAP elisa kit

Goat Ras GTPase Activating Protein ELISA Kit

CATALOG #
AAA90276

REACTIVITY
Goat

PRODUCT SYNONYMS

Ras GTPase Activating Protein; Goat Ras GTPase Activating Protein ELISA Kit; RasGAP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Goat
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Sandwich
Sensitivity	0.1 ng/mL.
Intended Uses	This RasGAP ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Goat RasGAP. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C

ADDITIONAL INFORMATION

Related Product Information for RasGAP elisa kit

Principle of the Assay: RasGAP ELISA kit applies the quantitative sandwich enzyme immunoassay technique. The microtiter plate has been pre-coated with a monoclonal antibody specific for RasGAP. Standards or samples are then added to the microtiter plate wells and RasGAP if present, will bind to the antibody pre-coated wells. In order to quantitatively determine the amount of RasGAP present in the sample, a standardized preparation of horseradish peroxidase (HRP) -conjugated polyclonal antibody, specific for RasGAP are added to each well to "sandwich" the RasGAP immobilized on the plate. The microtiter plate undergoes incubation, and then the wells are thoroughly washed to remove all unbound components. Next, substrate solutions are added to each well. The enzyme (HRP) and substrate are allowed to react over a short incubation period. Only those wells that contain RasGAP and enzyme-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The RasGAP concentration in each sample is interpolated from this standard curve.

Signal Transduction

NCBI AND UNIPROT INFORMATION

NCBI GI #	108884322
NCBI Official Full Name	ras gtpase activating protein

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
