

Goat Acid Sphingomyelinase ELISA Kit | ASM elisa kit

Goat Acid Sphingomyelinase ELISA Kit

CATALOG #
AAA90393

REACTIVITY
Goat

PRODUCT SYNONYMS

Acid Sphingomyelinase; Goat Acid Sphingomyelinase ELISA Kit; ASM elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Goat
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This ASM ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Goat ASM. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for ASM elisa kit

Principle of the Assay: ASM ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-ASM antibody and an ASM-HRP conjugate. The assay sample and buffer are incubated together with ASM-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the ASM concentration since ASM from samples and ASM-HRP conjugate compete for the anti-ASM antibody binding site. Since the number of sites is limited, as more sites are occupied by ASM from the sample, fewer sites are left to bind ASM-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The ASM concentration in each sample is interpolated from this standard curve.

Product Categories/Family for ASM elisa kit

Cell Biology

NCBI AND UNIPROT INFORMATION

NCBI GI #	179095
NCBI GeneID	6609
Molecular Weight	69,624 Da
NCBI Official Full Name	acid sphingomyelinase
NCBI Official Synonym Full Names	sphingomyelin phosphodiesterase 1, acid lysosomal
NCBI Official Symbol	SMPD1
NCBI Official Synonym Symbols	ASM; NPD; ASMASE
NCBI Protein Information	sphingomyelin phosphodiesterase; acid sphingomyelinase
UniProt Protein Name	Sphingomyelin phosphodiesterase
UniProt Gene Name	SMPD1
UniProt Synonym Gene Names	ASM; aSMase
UniProt Entry Name	ASM_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
