

Sheep Recombination activating gene 1 ELISA Kit | RAG-1 elisa kit

Sheep Recombination activating gene 1 ELISA Kit

CATALOG #
AAA90441

REACTIVITY
Sheep

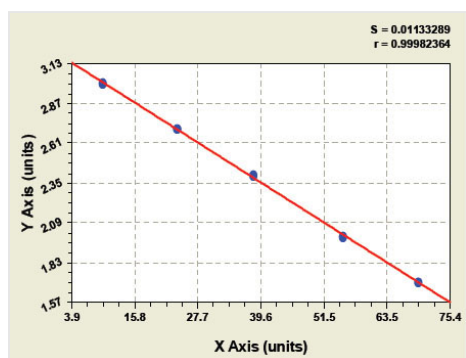

PRODUCT SYNONYMS

Recombination activating gene 1; Sheep Recombination activating gene 1 ELISA Kit; RAG-1 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 pg/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for RAG-1 elisa kit

For samples: Serum, plasma, cell culture supernatants, body fluid and tissue homogenate

INTENDED USE This RAG-1 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep RAG-1. This ELISA kit for research use only!

PRINCIPLE OF THE ASSAY RAG-1 ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-RAG-1 antibody and an RAG-1-HRP conjugate. The assay sample and buffer are incubated together with RAG-1-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the RAG-1 concentration since RAG-1 from samples and RAG-1-HRP conjugate compete for the anti-RAG-1 antibody binding site. Since the number of sites is limited, as more sites are occupied by RAG-1 from the sample, fewer sites are left to bind RAG-1-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The RAG-1 concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	27806043
NCBI GeneID	281964
NCBI Accession #	NP_776836.1
NCBI GenBank Nucleotide #	NM_174411.2
Molecular Weight	42,847 Da
NCBI Official Full Name	pregnancy-associated glycoprotein 1
NCBI Official Symbol	PAG1
NCBI Official Synonym Symbols	PAG1B
NCBI Protein Information	pregnancy-associated glycoprotein 1; PAG 1; PSP-B; pregnancy-specific protein B
UniProt Protein Name	Pregnancy-associated glycoprotein 1
UniProt Gene Name	PAG 1
UniProt Synonym Gene Names	PSP-B
UniProt Entry Name	PAG1_BOVIN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
