

Sheep Visfatin ELISA Kit | VF elisa kit

Sheep Visfatin ELISA Kit

CATALOG #
AAA90971

REACTIVITY
Sheep

PRODUCT SYNONYMS

Visfatin; Sheep Visfatin ELISA Kit; VF elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Sandwich
Sensitivity	0.1 ng/mL.
Intended Uses	This VF ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep VF. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for VF elisa kit

Principle of the Assay: VF ELISA kit applies the quantitative sandwich enzyme immunoassay technique. The microtiter plate has been pre-coated with a monoclonal antibody specific for VF. Standards or samples are then added to the microtiter plate wells and VF if present, will bind to the antibody pre-coated wells. In order to quantitatively determine the amount of VF present in the sample, a standardized preparation of horseradish peroxidase (HRP) -conjugated polyclonal antibody, specific for VF are added to each well to "sandwich" the VF immobilized on the plate. The microtiter plate undergoes incubation, and then the wells are thoroughly washed to remove all unbound components. Next, substrate solutions are added to each well. The enzyme (HRP) and substrate are allowed to react over a short incubation period. Only those wells that contain VF and enzyme-conjugated antibody will exhibit a change in color. The enzyme-substrate reaction is terminated by addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The VF concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	160415772
Molecular Weight	55,951 Da
NCBI Official Full Name	visfatin
UniProt Protein Name	Visfatin
UniProt Gene Name	PBEF
UniProt Entry Name	A9LRS6_9TELE

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
