

Porcine Low Density Lipoprotein ELISA Kit | LDL elisa kit

Porcine Low Density Lipoprotein ELISA Kit

CATALOG #
AAA91040

REACTIVITY
Porcine

PRODUCT SYNONYMS

Low Density Lipoprotein; Porcine Low Density Lipoprotein ELISA Kit; LDL elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Porcine
Samples	Serum, Plasma, Cell Culture Supernatants, Body Fluid And Tissue Homogenate
Assay Type	Quantitative Competitive
Sensitivity	0.1 ng/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for LDL elisa kit

Intended Uses: This LAT ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Mouse LAT. This ELISA kit for research use only!

Principle of the Assay: LAT ELISA kit applies the competitive enzyme immunoassay technique utilizing an anti-LAT antibody and an LAT-HRP conjugate. The assay sample and buffer are incubated together with LAT-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the LAT concentration since LAT from samples and LAT-HRP conjugate compete for the anti-LAT antibody binding site. Since the number of sites is limited, as more sites are occupied by LAT from the sample, fewer sites are left to bind LAT-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The LAT concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	306411097
Molecular Weight	8,219 Da
NCBI Official Full Name	low density lipoprotein, partial
UniProt Protein Name	Low density lipoprotein
UniProt Gene Name	LDLR
UniProt Entry Name	E1B4T0_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
