

Goat Androstenedione ELISA Kit | ASD elisa kit

Goat Androstenedione ELISA Kit

CATALOG #
AAA91089

REACTIVITY
Goat

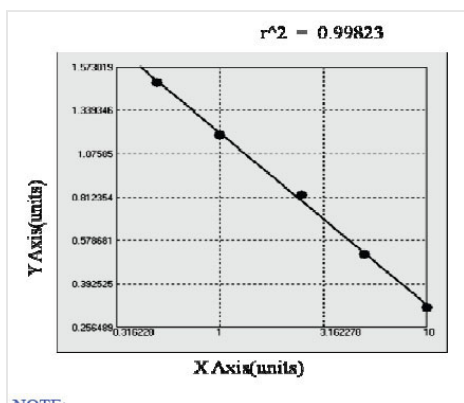

PRODUCT SYNONYMS

Androstenedione; Goat Androstenedione ELISA Kit; ASD elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Goat
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This ASD ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Goat ASD. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for ASD elisa kit

Principle of the Assay: ASD ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-ASD antibody and an ASD-HRP conjugate. The assay sample and buffer are incubated together with ASD-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the ASD concentration since ASD from samples and ASD-HRP conjugate compete for the anti-ASD antibody binding site. Since the number of sites is limited, as more sites are occupied by ASD from the sample, fewer sites are left to bind ASD-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The ASD concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	223692723
NCBI GeneID	7501938
Molecular Weight	40,046 Da
NCBI Official Full Name	Asd
NCBI Official Symbol	asd
NCBI Protein Information	aspartate-semialdehyde dehydrogenase Asd
UniProt Protein Name	Aspartate-semialdehyde dehydrogenase
UniProt Gene Name	asd
UniProt Synonym Gene Names	HRM2_29180; ASA dehydrogenase
UniProt Entry Name	C0QJY0_DESAH

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
