

Monkey Soluble toll-like receptor 6 ELISA Kit | STLR-6 elisa kit

Monkey Soluble toll-like receptor 6 ELISA Kit

CATALOG #
AAA91151

REACTIVITY
Monkey

PRODUCT SYNONYMS

Soluble toll-like receptor 6; Monkey Soluble toll-like receptor 6 ELISA Kit; STLR-6 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Monkey
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Sandwich
Detection Range	50-1000pg/mL
Sensitivity	1.0pg/mL
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for STLR-6 elisa kit	For samples: Serum, plasma, cell culture supernatants, body fluid and tissue homogenate INTENDED USE This STLR-6 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Monkey STLR-6. This ELISA kit for research use only! PRINCIPLE OF THE ASSAY STLR-6 ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-STLR-6 antibody and an STLR-6-HRP conjugate. The assay sample and buffer are incubated together with STLR-6-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the STLR-6 concentration since STLR-6 from samples and STLR-6-HRP conjugate compete for the anti-STLR-6 antibody binding site. Since the number of sites is limited, as more sites are occupied by STLR-6 from the sample, fewer sites are left to bind STLR-6-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The STLR-6 concentration in each sample is interpolated from this standard curve.
Product Categories/Family for STLR-6 elisa kit	Immunology

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
