

Sheep Intrinsic factor antibody ELISA Kit | IFA elisa kit

Sheep Intrinsic factor antibody ELISA Kit

CATALOG #
AAA91260

REACTIVITY
Sheep

PRODUCT SYNONYMS

Intrinsic factor antibody; Sheep Intrinsic factor antibody ELISA Kit; IFA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This IFA ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep IFA. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for IFA elisa kit

Principle of the Assay: IFA ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-IFA antibody and an IFA-HRP conjugate. The assay sample and buffer are incubated together with IFA-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the IFA concentration since IFA from samples and IFA-HRP conjugate compete for the anti-IFA antibody binding site. Since the number of sites is limited, as more sites are occupied by IFA from the sample, fewer sites are left to bind IFA-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The IFA concentration in each sample is interpolated from this standard curve

Product Categories/Family for IFA elisa kit

Signal Transduction

NCBI AND UNIPROT INFORMATION

NCBI GI #	183186
Molecular Weight	42,698 Da
NCBI Official Full Name	intrinsic factor
UniProt Protein Name	Gastric intrinsic factor
UniProt Gene Name	GIF
UniProt Synonym Gene Names	IFMH; IF; INF
UniProt Entry Name	IF_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
