

Monkey Glutathione S Transferases ELISA Kit | GSTpi elisa kit

Monkey Glutathione S Transferases ELISA Kit

CATALOG #
AAA91301

REACTIVITY
Monkey

PRODUCT SYNONYMS

Glutathione S Transferases; Monkey Glutathione S Transferases ELISA Kit; GSTpi elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Monkey
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Sandwich
Detection Range	25-500pg/mL
Sensitivity	1.0pg/mL
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for GSTpi elisa kit	For samples: Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
	INTENDED USE This GST ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Monkey GST. This ELISA kit for research use only!
	PRINCIPLE OF THE ASSAY GST ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-GST antibody and an GST-HRP conjugate. The assay sample and buffer are incubated together with GST-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the GST concentration since GST from samples and GST-HRP conjugate compete for the anti-GST antibody binding site. Since the number of sites is limited, as more sites are occupied by GST from the sample, fewer sites are left to bind GST-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The GST concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	83725252
Molecular Weight	24,506 Da
NCBI Official Full Name	Glutathione-S-transferases
UniProt Protein Name	Glutathione-S-transferases
UniProt Entry Name	A3RVP1_RALSL

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
