

Chicken Galanin ELISA Kit | GAL elisa kit

Chicken Galanin ELISA Kit

CATALOG # AAA91345	REACTIVITY Chicken
------------------------------	------------------------------

PRODUCT SYNONYMS

Galanin; Chicken Galanin ELISA Kit; GAL elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Chicken
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 pg/mL.
Intended Uses	This GAL ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Chicken GAL. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C

ADDITIONAL INFORMATION

Related Product Information for GAL elisa kit	Principle of the Assay: GAL ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-GAL antibody and an GAL-HRP conjugate. The assay sample and buffer are incubated together with GAL-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the GAL concentration since GAL from samples and GAL-HRP conjugate compete for the anti-GAL antibody binding site. Since the number of sites is limited, as more sites are occupied by GAL from the sample, fewer sites are left to bind GAL-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The GAL concentration in each sample is interpolated from this standard curve.
Product Categories/Family for GAL elisa kit	Cardiovascular

NCBI AND UNIPROT INFORMATION

NCBI GI #	999260
NCBI Official Full Name	galanin, GAL

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
