

Sheep Bone Alkaline Phosphatase ELISA Kit | BALP elisa kit

Sheep Bone Alkaline Phosphatase ELISA Kit

CATALOG #
AAA91594

REACTIVITY
Sheep

PRODUCT SYNONYMS

Bone Alkaline Phosphatase; Sheep Bone Alkaline Phosphatase ELISA Kit; BALP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	5.0-100ng/mL
Sensitivity	0.1ng/mL
Intended Uses	This BAP ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep BAP. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for BALP elisa kit

Principle of the Assay: BAP ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-BAP antibody and an BAP-HRP conjugate. The assay sample and buffer are incubated together with BAP-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the BAP concentration since BAP from samples and BAP-HRP conjugate compete for the anti-BAP antibody binding site. Since the number of sites is limited, as more sites are occupied by BAP from the sample, fewer sites are left to bind BAP-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The BAP concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	194133809
Molecular Weight	42,112 Da
NCBI Official Full Name	bap
UniProt Protein Name	BAP
UniProt Gene Name	bap
UniProt Synonym Gene Names	Dsecap; Dsec_GM10423; GM10423
UniProt Entry Name	B2ZIB7_DROSE

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
