

Sheep Acetylcholine Receptor antibody ELISA Kit | ACHRAB elisa kit

Sheep Acetylcholine Receptor antibody ELISA Kit

CATALOG #
AAA91607

REACTIVITY
Sheep

PRODUCT SYNONYMS

Acetylcholine Receptor antibody; Sheep Acetylcholine Receptor antibody ELISA Kit; ACHRAB elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, cell culture supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 ng/mL
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for ACHRAB elisa kit	For samples: Serum, plasma, cell culture supernatants, body fluid and tissue homogenate INTENDED USE This ACHRAB ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep ACHRAB. This ELISA kit for research use only! PRINCIPLE OF THE ASSAY ACHRAB ELISA kit applies the competitive enzyme immunoassay technique utilizing ACHR antigen and an ACHRAB-HRP conjugate. The assay sample and buffer are incubated together with ACHRAB-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the ACHRAB concentration since ACHRAB from samples and ACHRAB-HRP conjugate compete for the ACHR antigen binding site. Since the number of sites is limited, as more sites are occupied by ACHRAB from the sample, fewer sites are left to bind ACHRAB-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The ACHRAB concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	441144
Molecular Weight	1,282 Da
NCBI Official Full Name	acetylcholine receptor, partial
UniProt Protein Name	Acetylcholine receptor
UniProt Entry Name	Q13695_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
