

Goat Mitogen Activated Protein Kinase ELISA Kit | MAPK elisa kit

Goat Mitogen Activated Protein Kinase ELISA Kit

CATALOG # AAA91703	REACTIVITY Goat
------------------------------	---------------------------

PRODUCT SYNONYMS

Mitogen Activated Protein Kinase; Goat Mitogen Activated Protein Kinase ELISA Kit; MAPK elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Goat
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL
Intended Uses	This MAPK ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Goat MAPK. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C

ADDITIONAL INFORMATION

Related Product Information for MAPK elisa kit	Principle of the Assay: MAPK ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-MAPK antibody and an MAPK-HRP conjugate. The assay sample and buffer are incubated together with MAPK-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the MAPK concentration since MAPK from samples and MAPK-HRP conjugate compete for the anti-MAPK antibody binding site. Since the number of sites is limited, as more sites are occupied by MAPK from the sample, fewer sites are left to bind MAPK-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The MAPK concentration in each sample is interpolated from this standard curve.
Product Categories/Family for MAPK elisa kit	Metabolism

NCBI AND UNIPROT INFORMATION

NCBI GI #	148750945
NCBI Official Full Name	MAPK

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
