

Chicken Dopamine Transporter ELISA Kit | DAT elisa kit

Chicken Dopamine Transporter ELISA Kit

CATALOG #
AAA91959

REACTIVITY
Chicken

PRODUCT SYNONYMS

Dopamine Transporter; Chicken Dopamine Transporter ELISA Kit; DAT elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Chicken
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ng/mL.
Intended Uses	This DAT ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Chicken DAT. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C

ADDITIONAL INFORMATION

Related Product Information for DAT elisa kit

Principle of the assay: DAT ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-DAT antibody and an DAT-HRP conjugate. The assay sample and buffer are incubated together with DAT-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the DAT concentration since DAT from samples and DAT-HRP conjugate compete for the anti-DAT antibody binding site. Since the number of sites is limited, as more sites are occupied by DAT from the sample, fewer sites are left to bind DAT-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The DAT concentration in each sample is interpolated from this standard curve.

Neurobiology

NCBI AND UNIPROT INFORMATION

NCBI GI #	223691974
NCBI GeneID	7501668
NCBI Official Full Name	Dat
NCBI Official Symbol	dat
NCBI Protein Information	D-alanine aminotransferase Dat; hypothetical protein

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
