

Sheep Oncostatin M ELISA Kit | OSM elisa kit

Sheep Oncostatin M ELISA Kit

CATALOG # AAA92188	REACTIVITY Sheep
------------------------------	----------------------------

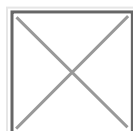

PRODUCT SYNONYMS

Oncostatin M; Sheep Oncostatin M ELISA Kit; OSM elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Intended Uses	This OSM ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep OSM. This ELISA kit for research use only, not for therapeutic applications
Intended Uses	This OSM ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep OSM. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for OSM elisa kit	Principle of the Assay: OSM ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-OSM antibody and an OSM-HRP conjugate. The assay sample and buffer are incubated together with OSM-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the OSM concentration since OSM from samples and OSM-HRP conjugate compete for the anti-OSM antibody binding site. Since the number of sites is limited, as more sites are occupied by OSM from the sample, fewer sites are left to bind OSM-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The OSM concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	10092621
NCBI GeneID	5008

NCBI Accession #	NP_065391.1
NCBI GenBank Nucleotide #	NM_020530.4
Molecular Weight	28,484 Da
NCBI Official Full Name	oncostatin-M preproprotein
NCBI Official Synonym Full Names	oncostatin M
NCBI Official Symbol	OSM
NCBI Protein Information	oncostatin-M
UniProt Protein Name	Oncostatin-M
UniProt Gene Name	OSM
UniProt Synonym Gene Names	OSM
UniProt Entry Name	ONCM_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
