

Goat Ghrelin ELISA Kit | Ghrelin elisa kit

Goat Ghrelin ELISA Kit

CATALOG #
AAA92612

REACTIVITY
Goat

PRODUCT SYNONYMS

Ghrelin; Goat Ghrelin ELISA Kit; Ghrelin elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Goat
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	0.5-10ng/mL
Sensitivity	0.1ng/mL
Intended Uses	This Ghrelin ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Goat Ghrelin. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for Ghrelin elisa kit

Principle of the Assay: Ghrelin ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-Ghrelin antibody and an Ghrelin-HRP conjugate. The assay sample and buffer are incubated together with Ghrelin-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the Ghrelin concentration since Ghrelin from samples and Ghrelin-HRP conjugate compete for the anti-Ghrelin antibody binding site. Since the number of sites is limited, as more sites are occupied by Ghrelin from the sample, fewer sites are left to bind Ghrelin-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The Ghrelin concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	304435649
Molecular Weight	12,992 Da
NCBI Official Full Name	ghrelin
UniProt Protein Name	Ghrelin
UniProt Entry Name	E7CCH4_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
