

Bovine Heat Shock Protein 20 HSP-20 ELISA Kit | HSP-20 elisa kit

Bovine Heat Shock Protein 20 HSP-20 ELISA Kit

CATALOG #
AAA92707

REACTIVITY
Bovine

PRODUCT SYNONYMS

Heat Shock Protein 20 HSP-20; Bovine Heat Shock Protein 20 HSP-20 ELISA Kit; HSP-20 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Bovine
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	1.0 ng/mL.
Intended Uses	This HSP-20 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Bovine HSP-20. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for HSP-20 elisa kit

Principle of the Assay: HSP-20 ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-HSP-20 antibody and an HSP-20-HRP conjugate. The assay sample and buffer are incubated together with HSP-20-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the HSP-20 concentration since HSP-20 from samples and HSP-20-HRP conjugate compete for the anti-HSP-20 antibody binding site. Since the number of sites is limited, as more sites are occupied by HSP-20 from the sample, fewer sites are left to bind HSP-20-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The HSP-20 concentration in each sample is interpolated from this standard curve.

Signal Transduction

NCBI AND UNIPROT INFORMATION

NCBI GI #	15899330
NCBI Accession #	NP_343935.1
NCBI GenBank Nucleotide #	NC_002754.1
NCBI Official Full Name	hsp 20 family small heat shock protein

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
