

Sheep Cardiac myosin-light chains 1 ELISA Kit | CMIC-1 elisa kit

Sheep Cardiac myosin-light chains 1 ELISA Kit

CATALOG #
AAA92733

REACTIVITY
Sheep

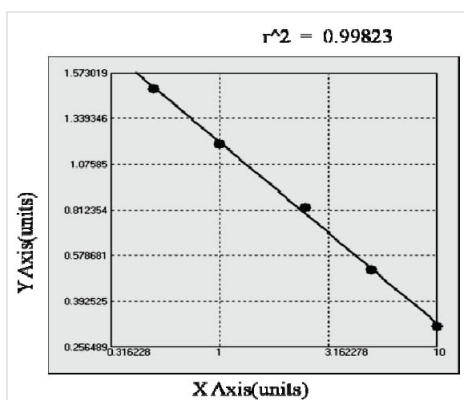

PRODUCT SYNONYMS

Cardiac myosin-light chains 1; Sheep Cardiac myosin-light chains 1 ELISA Kit; CMIC-1 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Sheep
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Sensitivity	0.1 ug/mL.
Preparation and Storage	Store all reagents at 2-8 degree C.

Related Product Information for CMIC-1 elisa kit

Intended Uses: This CMIC-1 ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Sheep CMIC-1. This ELISA kit for research use only!

Principle of the Assay: CMIC-1 ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-CMIC-1 antibody and an CMIC-1-HRP conjugate. The assay sample and buffer are incubated together with CMIC-1-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the CMIC-1 concentration since CMIC-1 from samples and CMIC-1-HRP conjugate compete for the anti-CMIC-1 antibody binding site. Since the number of sites is limited, as more sites are occupied by CMIC-1 from the sample, fewer sites are left to bind CMIC-1-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The CMIC-1 concentration in each sample is interpolated from this standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	55926111
NCBI GeneID	64671
NCBI Accession #	NP_571767.1
NCBI GenBank Nucleotide #	NM_131692.1
NCBI Official Full Name	cardiac myosin light chain-1
NCBI Official Synonym Full Names	cardiac myosin light chain-1
NCBI Official Symbol	cmlc1
NCBI Official Synonym Symbols	zgc:103441
NCBI Protein Information	cardiac myosin light chain-1; laz; lazy susan

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
