

Rabbit High molecular weight Adiponectin ELISA Kit | HMW ADNP elisa kit

Rabbit High molecular weight Adiponectin ELISA Kit

CATALOG #
AAA93008

REACTIVITY
Rabbit

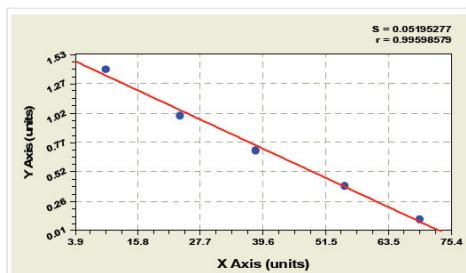

PRODUCT SYNONYMS

High molecular weight Adiponectin; Rabbit High molecular weight Adiponectin ELISA Kit; HMW ADNP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rabbit
Samples	Serum, plasma, Cell Culture Supernatants, body fluid and tissue homogenate
Assay Type	Competitive
Detection Range	1.0-25ug/mL
Sensitivity	0.1ug/mL
Intended Uses	This HMW APN ELISA kit is a 1.5 hour solid-phase ELISA designed for the quantitative determination of Rabbit HMW APN. This ELISA kit for research use only, not for therapeutic applications!
Preparation and Storage	Store all reagents at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for HMW ADNP elisa kit

Principle of the assay: HMW APN ELISA kit applies the competitive enzyme immunoassay technique utilizing a monoclonal anti-HMW APN antibody and an HMW APN-HRP conjugate. The assay sample and buffer are incubated together with HMW APN-HRP conjugate in pre-coated plate for one hour. After the incubation period, the wells are decanted and washed five times. The wells are then incubated with a substrate for HRP enzyme. The product of the enzyme-substrate reaction forms a blue colored complex. Finally, a stop solution is added to stop the reaction, which will then turn the solution yellow. The intensity of color is measured spectrophotometrically at 450nm in a microplate reader. The intensity of the color is inversely proportional to the HMW APN concentration since HMW APN from samples and HMW APN-HRP conjugate compete for the anti-HMW APN antibody binding site. Since the number of sites is limited, as more sites are occupied by HMW APN from the sample, fewer sites are left to bind HMW APN-HRP conjugate. A standard curve is plotted relating the intensity of the color (O.D.) to the concentration of standards. The HMW APN concentration in each sample is interpolated from this standard curve.

Product Categories/Family for HMW ADNP elisa kit

Signal Transduction

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
